DIGITAL PRETOUCHING

PRE TOUCH ... TPI is offering an automated blemish only retouch for the affordable price of **\$2.10 per image**. This is a new proven way to increase your sales. Throughout the country, photographers who have been ordering their images with pre-touching have seen increases *from 12 to 24 percent* on their sales. [Call us for more Details](#)

In years past the costly price of retouching has burdened us all. Although most of us are now shooting digital capture, there is still all the time we spend behind the computer making our images look as pristine as possible. Some of us don't mind it; others find it to be a burden. Plus for the photographers that do not have the time to do the retouching themselves, they often find themselves paying an employee to sit behind the computer and retouch all the images for them and that can also get very costly. What if you could get your retouching done and also increase your sales at a very affordable price. What if you didn't have to sit behind the computer when you could be behind the camera or marketing your studio to bring in more revenue?

Well, after saying all this, TPI Photo Lab is proud to start offering **PRE-TOUCHING**. When you send us your files or film for proofing, TPI is offering an automated blemish only retouch for the [affordable price of \\$1.99 per image](#). This is not a new trend to the industry, but a proven way to increase your sales. Throughout the country, photographers who have been ordering their images with pre-touching have seen increases *from 12 to 24 percent* on their sales. Plus, since most seniors are not filled with pimples and blemishes, the face looks very clean and most customers do not ask for further retouching which will raise your profits even more without having to pay for additional retouching and increase your folio sales where you can use your proofs.

Pre-Touching will remove up to 95% of the pimples and blemishes that cover your customers face. It does not include bags under eyes, shine on the face, glass glare or stray hairs. If requested, additional retouching is available thru TPI Photo Lab when you return your images to us for further ordering. Please contact either Gene or Dennis for more information regarding this service. Please take a good look at the samples enclosed, these were run thru the Pre-Touching service without any additional work done to the image. All images must be batched together for this service price. Service is only available on proofing. Price does not include proof.

COLOR OVERLAY	1.50	N/A
GOLD/SILVER OVERLAY	3.50	N/A
GOLD FOIL STAMP	2.00	\$0.15 PER WALLET

Imprinting is usually done in the lower right corner unless specified. It can be placed anywhere on the wallet and can be done in block or script type. If no type is specified, we will use script.

Digital Software

LAB PRINTS-DIGITAL STUDIO LP

A new ordering Software System for the Wedding-Portrait Photographer

Using Digital Studio LP assists the photographer in organizing his files, putting them in categories (such as pre-ceremony, ceremony, reception, etc.) and eliminates the files you do not want the customer to see.

This allows the photographer to create his own templates for Flush or Coffee Table Books. These template designs can then be saved to use again and again for all of your portrait photography including Seniors and Families. And the most important **OUR** lab can ***COLOR CORRECT EACH IMAGE for you ON THE PAGE.***

Available in Semi Matte – Semi Gloss. Please specify spray type desired. If not Semi Gloss will be used. When large quantities are sprayed at one time, you can deduct 50% off prices quoted

BRUSH TEXTURE

Texture can be applied to enhance the natural beauty of the print and create the look of a brushed artists painting. **Please specify light or heavy.** Texture dries to a gloss finish so specify if you wish a matte finish sprayed as a final coat. Prints must be mounted before Brush Texture is applied.

PRINT MOUNTING

Prints are mounted on acid free Art Board, Foam core, or Masonite when using canvas. Triple weight is used on 11 x 14 larger. Normally on 24 x 30 or larger we recommend the use of Foam Core because it is not affected by humidity conditions that can cause warping in products such as art board.

CANVAS MOUNTING

First your prints are stripped from the RC backing of the paper then pressured mounted to an artists canvas for a truly rich look, then pressure adhered to Masonite that has wrapped edges for maximum stability. With all canvas mounted prints we highly recommend a finish coat of spray to seal and protect prints. Please don't confuse this product with the lower end product called canvas board. We cannot be responsible for differences in canvas materials.

SPECIAL EVENTS

DANCES-SCHOOLS- BUDGET SPECIALS

Special Events packages are quick and offer flexibility of packages designed by you, at the time of film processing. These are events in which every frame is exposed at the same lighting conditions. They are analyzed for average color and density.

If inconsistent lighting occurs, delays will result in completing your order in the time specified because we will still attempt to provide an acceptable print. But due to the increased amount of extra labor involved a **\$5.00 charge will be added** for each job. When duplicate poses are shot throughout the job there will be a **\$3.50 editing charge**.

Prices are based on 20 or more negatives or files per order. A **\$10.00 setup fee** will apply to orders with less than 20 exposures or files.

CUSTOM-EVENT PACKAGES

Digital Restoration

FROM FILM OR PRINTS

In the past Restoration and Print Enhancement were accomplished thru air brushing, penciling, and spraying. What once was difficult or near impossible, is now practical,... such as combining elements from different images, changing heads from one pose of a group shot to another, completely changing background, or adding special effects to an image or part of an image. We can also add color to black and white photographs, create Sepia tone and Monochrome prints. These are only a few of the applications that are possible.

INPUT-Scanning....

We use several scanners to input digital data. We can accept input for digital imaging from the following:

Color or Black & White Negatives	35mm to 67mm" Negatives
Color Slides & Transparencies	35mm to 6x7mm" Slides
Color or Black & White Photographs	Up to 11 x 14" *

OUTPUT....

We use LED and LASER digital printers for printing directly paper:

Digital Print	Up to 30 x 40" (print size)
---------------	-----------------------------

RESTORATIONS: We offer a complete Restoration Department. Photographs and family heirlooms that are worn, faded, cracked, and were once considered beyond repair, can be restored to their original splendor and be kept as family treasures for future generations to enjoy.

*NOTE:

All images are considered to be copyrighted. We reserve the right to turn down any order that contains material suspected to be in copyright violation. We will not reproduce images from books, magazines etc., without the written permission from the originator of the image. Release forms must be

SPORTS ITEMS

MEMORY MATE PACKAGES

(Service time varies upon items ordered)

Team Package printing is for group activities such as sports teams, little leagues, dance schools, nursery schools, etc.

Editing for best Group Picture is available at no charge. **(We cannot be responsible if you do not agree with our choice)** Minimal dust spotting is included...All orders must include our run sheet. Please send one of your order forms with your film and order sheet so we may verify the correct packages and avoid mistakes that could delay the production of your order. We cannot start your job if the run sheets are not included with your order.

We also offer Individual Packaging of your MM orders for a cost of **\$0.50** per file. Price includes poly bag or window envelope. (Note: If prints are to go into folders add the cost of the folder.)

We have developed a [Full Color MM Flyer](#) to increase your sales. Cost is **\$0.16** each with your pricing or **\$0.13** each without your pricing. We can do envelopes at **\$0.27** each

CUSTOM CUT-OUTS

We offer several cut-outs to help increase your sales. [The Jumbo Statuette](#) is printed as an 8x10" then mounted on very dense acrylic and cut. It is inserted onto a 3x5" solid walnut base with a gold figure that corresponds to each sport or activity. An engraved plate is offered to your customer to add personalization to the statuette. When shooting statuettes, photograph the subject full length. The finished product looks more attractive if you try to keep items like batons, bats, fingers, etc. in front of the subject. Items such as these become very unattractive when the background is cut away and these items such as batons become weak and are easily broken. [Cut-Out Magnets](#) are great sellers for mom's refrigerator or school lockers. A 4x5" print is mounted to very dense acrylic then cut and mounted to magnets. [Team Cut-Outs](#) make great gifts for coaches, managers, etc. Team prints are mounted to acrylic then cut and placed on a wood base.

SPORTS ITEMS

SPONSOR / COACH PLAQUES

7x5" Team or Group pictures are mounted to a 7x9" Gold edge Plaque with an engraved plate. Please order sponsor or coach plaques with memory mates. If ordered later, machine prices will apply.

BUTTONS-MAGNETS-KEYCHAINS

Buttons are the ever popular 3" variety **We offer 3 STYLES.** Magnets come in **2 Styles** the **Cut-out** or a **Wallet** with a framed magnet. Key chains are available in Round or Rectangular style. We also offer the **MM Keychain** with the Individual of front and the Team on the back with colored Border.

CALENDARS-MAGAZINE COVER

Calendars and Magazine covers utilize the latest high tech graphics to give you the edge in offering what your customers are asking for. We can also customize selected items that may require Personalization of Names, Team Names or Team and School logos.

Calendar months start the month the picture was taken.

WALL MOUNT PLAQUE

Plaques are walnut finish with Gold edges and are 7x9" in size. A 4x5" Individual print is mounted to the plaque and a gold plaque figure, depending on the sport or activity, is used. An optional engraved Personalized Plate is offered to your customer.

HOT SHOTS WALL CLINGERS

Hot Shots, is a repositionable wall clinger material. Just like the FATHEADS for Pro Players. They can be life size or smaller, they can be removed and replaced many times and will stick to any clean surface with no damage to the wall when removing.

SPORTS ITEMS

SPORTS LINE

PICK-A-PAK EVENTS

PACKAGES FROM DIGITAL FILES

ECONOLINE

This service is designed to allow the most flexibility in your Package Program, FROM YOUR DIGITAL FILES

With [Pick-A-Pak](#) or [Econoline](#) you can use different package combinations of 8 x 10 Units. Or when you have to offer specific packages. Must be from same Event.

Pick – A – Pak is great for schools, nursery schools, clubs and organizations etc.

Prices are based on a [minimum of 50 files per job](#), or a [\\$10.00 setup fee will apply](#). Consistent lighting should be used for best results. Be careful not to shoot groups or individuals full out if selling 8x10's & 4x5's because the subject on the edge will be cut off. Make sure you center the subject exactly for them to be centered in the print. Available [ONLY](#) from Digital Files.

For best results consistent exposures are a must. Files sent to us must be uniform in color and density and packaged by you or using our ROES SYSTEM. The lab will do 1(one) global correction and print. Pricing is based on an accelerated scale...The higher number of units the cost decreases per unit.

WEDDING ALBUMS

Romanco Custom

The *Infina*, *Empire* & *Empire Pro* are CUSTOM panoramic, flush mount albums made to highlight your creations. Each album is handcrafted to meet your specific needs for your clients. With different colors and sizes, these albums will artfully showcase your work and increase your studio sales.

Your photos are coated to protect them from liquid and scratches. They are then mounted on archival quality board with no crease in the center for a flawless spread. Your design can include individual pages made into two page spreads. Paper choices include luster or metallic surface paper. (**Additional Charge of \$4.00 per Spread for Metallic Paper**). Metallic paper will not be coated as this interferes with the metallic sheen of the paper.

- They are handmade with reinforced and rounded spines which create the least amount of stress on the individual pages. This special treatment lengthens the life of the album.
- Each page is rounded to enhance the look and to keep the corners from fraying.
- Each page to open flat. Panoramic spreads are folded individually by a custom designed machine to compensate for any shifts in printing and variance in paper thickness.
- Our unique drying process keeps the albums under pressure for forty eight hours with optimum temperatures and moisture control to help ensure that each album will keep its original form after many years of use.

Available sizes: 8x8, 10x10, 12x12, 8x10, 10x8, 11x14, 14x11

WEDDING ALBUMS Romanco Custom

ROMANCO CUSTOM ALBUMS

Image safety area for **Empire PRO** cover

Cover image design should be created with a 3/4" safety margin within the design on the outside edges. We will fold 3/4" off the finished book on the three outside edges.

Album size	Cover Image size
10x8	W-10.25 X H-9.75
10x10	W-10.25 X H-11.75
12x12	W-12.25 X H-13.75
11x14	W-11.25 X H-15.75
14x11	W-14.25 X H-12.75

Image safety area for **INFINA** cover

Always design cover as a spread. For example, a 10x10 album cover should be designed as a 20x10 spread. Cover image design should be created with a 1/8" safety margin within the design on the outside edges and 2" on the center (spine area) of the spread.

WEDDING ALBUMS

Romanco Custom

Print Safety Area Instruction.

Files should be sized exactly for the album size requested. Always design as spreads. For example, a 10x10 album should be designed as a 20x10 spread, a 10x8 Horiz. album should be designed as a 20x8 spread. Each spread in your album should be a separate file.

All files need to be created in JPEG in RGB color space at high resolution, 300dpi. Images files must be color corrected and ready to print. Please follow a numbering system: 001, 002, 003, etc.

Be sure to include the print that will be needed for the cover window.

All designs should be created with a 3/8" safety margin within the design on the outside edges. We will trim 1/8" off the finished book on the three outside edges.

If you will be ordering clones, submit appropriately sized files for both original order and the clone order. If you are ordering a 10x10 album and a 8x8 clone, we will need 20x10 files for 10x10 album and 16x8 files for the 8x8 clone. Note that when scaling down from the larger size files to a smaller size, the safety margin is reduced and should be accordingly adjusted so that the design is not compromised during the page block trimming.

Cover print 5x5 for window 3 3/4" x 3 3/4" will be trimmed 1/2" on the four outside edges

Cover print 5x5

WEDDING ALBUMS

WHO IS GOING TO COLOR CORRECT FILES?

To make your album really stand out, we recommend your files should be color corrected. If you are using your own design software we can only do a global correction on your files. We recommend color correcting your files and returning them before you create your album.

Color correction is only \$0.18 per file. That way the images thru out the album will match closely in color and density.

WHO IS GOING TO DESIGN?

Decide who is going to design your album. You or the Lab. We currently use Lab Prints as our digital album layout tool if we design the album for you. ROES software is also available through TPI. For your own copy, please call us for more information.

PLANNING

Organize your photos. Create several folders titled with different stages of the event. Your folders may look something like this: Arrival - Dressing - Church - Ceremony - Formals - Reception - First Dance - Cutting the cake - Toast - Departure.

You should have a good balance of photos in each folder. If you are allowing the couple to choose, you should explain the concept and coach them accordingly. There should also be a folder for background images. These could include close ups of the stained glass, the bodice, the bouquet, table setting etc.

LAYOUT

Depending on the layouts, choose about 4 or 10 images per spread. This allows for single Panoramic prints and collages. An album with 16 spreads would take about 70 images. The more images you include, the busier your layouts will be. If you design and send us the layouts, we prefer the files in .jpg or.tiff.

Children don't read
to find their identity,
to free themselves
from guilt,
to quench the thirst for
rebellion or to get
rid of alienation.
They have no use
for psychology....
They still believe in God,
the family, angels,
devils, witches,
goblins, logic, clarity,
punctuation,
and other such
obsolete stuff....
When a book is boring,
they yawn openly.
They don't expect
their writer
to redeem humanity,
but leave to adults
such childish illusions.

RESTORATION SERVICE

Did you know that TPI offers full restoration service. You can send us your customers original or do a High Resolution scan and send it to us. Once received we will send you a quote as to how much the restoration cost will be. Once the work is completed we e-mail you a copy of the work that has been done for approval before we print the copies needed for the job. Another service TPI offers to keep you behind the camera and away from the computer.

Price quotes are based on amount of time estimated based on complexity of restoration. Time is billed by the 15 minute Minimum.

RETOUCHING SERVICE

TPI offers full retouching service. Everything from basic blemishes, glass glare, stray hairs, background changes, background flaws, shine on face, swap heads, open eyes and more.

Retouching starts as low as \$3.95 per file.

We also offer pretouching. When you send in your files for proofing, we run them thru our automated retouch software that removes up to 95% of the blemishes. Photographers who are showing their customers retouched proofs have shown a 24% up sale from their customers. Another service TPI offers to keep you behind the camera and away from the computer. Pretouch your files for \$1.99 per file.
